Egyptian Pharmaceutical Students' Federation at MUST "EPSF MUST"

EPSF MUST was found in April 2009.

-EPSFMUST is a full member (FM) Federation, representing MUST in the Egyptian Pharmaceutical Students' Federation (EPSF). Works under supervision of Egyptian Pharmacists Syndicate and Egyptian Pharmaceutical Association (the national FIP) and administrated by Students.

Our Mission: - Produce a qualified pharmacy student.

- Fulfil pharmacist's duty in serving the community.
- Introduce the shining face of Egypt to the whole world.

Our Vision: - Our vision is to make EPSF-MUST the best organization over MUST and EPSF that provides the pharmacy student with what he needs and helps him to give what is needed from him.

Our Values:

- Do it with passion or not at all.
- Give more than you take.
- Together everyone achieves more.
- Noblest service comes from nameless hands and done

MAIN COMMITTEES:

EPSF has **5 projects oriented committees** which aim to serve pharmacy students, pharmacists and the community. 1-Public Health Public health committee is an important part of the Egyptian Pharmaceutical Students' Federation, Using their strength in scientific and public health research, they have built effective teams around Egypt, they are organizing health awareness campaigns in universities, public places, villages and Schools about different epidemic places in Egypt to increase public awareness. EPSF is intended to be one of the best organizations all over Egypt which is interested in Public health, all the Associations collaborate with their time and efforts preparing the materials and actively arrange campaigns all over Egypt; they all interact and develop their skills, to increase people's aware, help them to change their life style and present a real change on ground.

1-Public Health committee Responsible for: Promote public awareness in Egypt and to deliver the concept of pharmacy students' role to the public and spreading the latest information about Public Health topics to EPSF member association. Holding awareness campaigns for the WHO Health awareness day Public Health workshops during Annual Congress, National Symposium and through the year. Tobacco Alert Campaign:Each year EPSF exerts effort to reduce the prevalence of smoking-related diseases. Their target is to convince people to stop and to help them understand the risks of developing the fatal diseases caused by smoking. Congresses and campaigns aim to help people detect the diseases caused by smoking and be diagnosed early.

2-Professional Development committee Responsible for: Creating events for developing the pharmacy practice and Promoting the pharmacist role in the community and improving the quality of the profession through professional events and workshops, establishment of basic projects included by this portfolio such as Clinical Skills Event, Patient Counseling Event, Pharmacy Profession Awareness Campaign and Teddy Bear Hospital according to the need of EPSF through the year.

3- Continuous Education committee responsible for -Plan, coordinate and innovate courses.

-creating other educational programs which helps pharmacy students in Egypt to fulfill the profession requirements after graduation. -Plan and coordinate the Mini diploma program and responsible for its development to achieve the target and

to appear in the best way. -Work for creating other educational and research programs.

4-Student Exchange Program (SEP) Student Exchange Program (SEP) is a project offering professional pharmacy internships. Every year, through it pharmacy students around Egypt are given the opportunity to experience the field of pharmacy in other countries.

5-Scientific Research Committee responsible for: 3Dimension of Science project, establishment of surveys about new diseases or drugs in Egypt, EPSF MUST Online Medical Magazine and all scientific data needed in EPSF MUST
