

SDG5 (Gender Equality)

Metrics and indicators

5.3. Student access measures

5.3.4. Women's application in underrepresented subjects Year: 2021

MUST does not have a scheme to encourage women's application in underrepresented subjects because women are well represented in all different subjects according to their interests for example, in the medical sector female represent 50.7%. Also, Arts and humanities/social sciences females represent 38.9%. Additionally, female students are underrepresented in STEM subjects by 10.3% due to social preferences. MUST University organized workshops and webinars to encourage students to join STEM subjects.
