

Sustainable Investment Policy

Policy Overview:

Misr University for science and technology aims to be an inspirational place to study and work, promoting the well-being of current and future generations, justice, integrity and sustainable growth in society.

Sustainable investment policy matches both Egypt 2030 vision and University Strategic Plans, and therefore, we are committed to ensuring that our funds are invested responsibly. This policy ensures that the University optimizes its investment returns without compromising our commitment to sustainability and well-being of current and future generations.

Sustainable Investment Strategy:

1. Investment Exclusions

By applying a set of procedures to ensure that companies that may be harmful to society or the environment are excluded, and to invest/deal in businesses with responsible culture, practices, and good governance.

2. Environmental, Social and Governance (ESG) Integration

When investing, the university considers the following:

- Incorporate ESG issues into their investment analysis and decision- making processes.
- Engage on social and environmental issues and track this engagement through regular stewardship reporting to the leaderships.
- Ensure the investment in upgrading university building to be sustainable having policies and allocated required fund to execute it for reducing CO2.
- Upgrading and continuous expansion for hospitals and medical activities to support required regional health issues.
- Encouraging and funding research target sustainable development.
- Coordinating with Socially responsible investing corporates.

3-Impact Investing

Misr University for science and technology is seeking to enhance the ESG alignment of the investments and have a positive impact while generating financial return. The University will invest in businesses and sectors, which are explicitly aiming to deliver an environmental and social return in addition to a financial return and will be diversified across eight sustainability themes:

- Clean energy
- Food & Agriculture
- Waste & Materials
- Ecosystem Services
- Education
- Health

Reporting:

The University will make available on an annual basis an impact report highlighting that how the University's is working to meet the frame work set out within the Sustainable Investment Policy.
