MUST is a distinguished institution situated in 6th of October City, along the bustling 26th of July Corridor, offering a dynamic and easily accessible location right across from the Engineers Syndicate Club. Some of the university's facilities are open to the public. In the realm of healthcare, MUST provides a hospital, medical convoys, and college outpatient clinics, including the Dental Clinics Complex and the Therapeutic Unit of the College of Physical Therapy. For educational and research purposes, the MUST Test Center, School of Continuing Education, Student Experimental Factory, Research and Development Center, Dental Implant Research Center, and Management Development Center are all accessible to the public. Additionally, the university's cultural and heritage buildings, such as the Mosque, MUST Opera House, Talent Development Center, Museum, and Center of Editing Arabic Heritage, offer a rich array of cultural and historical experiences. These facilities, not only valuable for the university community, are open to the public, enriching the local area and serving as hubs for community engagement and heritage preservation.

I- Health Building accessible for Public:

1- Hospital:

[Souad Kafafi University Hospital](#) is an institution with a diverse team of 300+ skilled medical professionals in 40 specialties, providing comprehensive patient care that meets rigorous international standards. Their state-of-the-art facilities encompass outpatient clinics, emergency care, specialized services, operating rooms, a laboratory, and a blood bank. Additionally, MUST University owns three mobile hospitals that support medical convoys and provide free community health services, including medical examinations and procedures across various specialties. This initiative reflects their dedication to enhancing public health and well-being through outreach programs.

- 2- [The isolation hospital](#) of MUST University is a renowned healthcare facility situated outside the university campus, delivering top-tier medical care to patients in need of isolation. This Hospital creates a secure and comfortable environment, addressing both the health and social needs of its patients. With a highly skilled medical and nursing team, patient care, comfort, and safety are assured. The hospital is built on a total area of five acres, which consists of green areas with an area of 5000 square meters.

- 3- **The Dental Clinics Complex** is a cutting-edge facility offering a comprehensive spectrum of dental services to patients. The Faculty of Oral and Dental Surgery is committed to delivering top-notch clinical education, aligning with the standards of higher education institutions, and delivering exceptional dental care to the community. The complex comprises four specialized treatment clinics and a diagnostic center, all equipped with multiple dental chair units and X-ray facilities. Additionally, it houses a centralized sterilization unit to ensure the sterilization of dental equipment used in patient care.

4- Therapeutic Unit of the College of Physical Therapy

MUST Rankings Office

MISR UNIVERSITY
FOR SCIENCE & TECHNOLOGY

The Therapeutic Unit of the College of Physical Therapy, established in April 2014, operates independently under the Misr University for Science and Technology. It consists of two subunits, one for adult patients and the other for pediatric cases. The unit offers physical therapy evaluations, treatment sessions, and patient education to university employees and the local community. It also provides educational services to undergraduate students, emphasizing orthopedic and pediatric dysfunctions, and supports research activities for faculty and selected researchers.

Statistics of the target groups of the therapeutic unit (2021 – 2022)

<i>Staff Member</i>	22
<i>Teaching Assistants</i>	52
<i>Employees</i>	114
<i>Outpatient</i>	163
<i>Pediatrics</i>	16
<i>Students</i>	48

II- Educational and Research Buildings Accessible for The Public:

1- MUST Test Center

The [MUST Test Center](#) holds a unique distinction as the exclusive provider of the [Pearson Test of English](#) (PTE) Academic Exam in Egypt, extending access to both MUST students and the general public. Beyond the PTE Academic, the center administers various other examinations, including the Versant English Placement Test, which assesses the English proficiency of incoming university freshmen. Furthermore, it hosts the NCEES exam, an essential component for engineering and surveying licensure in the United States, aimed at facilitating professional mobility and standardizing U.S. licensure procedures through support for its member licensing boards and licensees. This comprehensive range of tests reflects the center's commitment to supporting academic and professional development while serving a broader community.

2- MUST School of Continuing Education and Executive Programs (SCEEP)

MUST School of Continuing Education and Executive Programs (SCEEP):

MUST University is committed to public service and outreach, sharing resources and expertise to enhance lifelong learning. Through The School of Continuing Education and Executive Programs (SCEEP), it provides recognition for non-credit program participants and reports its development efforts. The university's mission centers on lifelong education, emphasizing knowledge and skills improvement for career growth and personal enrichment, distinct from traditional degree programs.

3- Student Experimental Factory (SEF)

The Student Experimental Factory (SEF-MUST) was established in 2019. It offers students hands-on experience in an industrial setting, covering the entire manufacturing process. In addition to serving MUST students, SEF-MUST extends its services to undergraduates, postgraduates, researchers, and pharmaceutical companies. SEF-MUST introduced various services, including professional training programs, problem-solving consultations, research services, and equipment rentals. Notably, it is actively engaged in community service and environmental development. During the COVID-19 pandemic, SEF-MUST produced sanitizer gel and distributed authorized medication to underprivileged medical centers. It also organized workshops for industrial companies focused on waste reduction and green packaging. Furthermore, SEF-MUST initiated the production of pharmaceutical products at cost, promoting community welfare and education.

4- College of Physical Therapy Research Labs

The College of Physical Therapy at MUST University provides advanced research facilities equipped with the latest technology. It serves the broader community, allowing researchers from both inside and outside the university to access these resources. These labs cater to a wide range of research needs across various areas, making them invaluable for advancements in physical therapy and rehabilitation research.

The college features specialized research labs at the highest level of modern equipment and facilities:

- Isokinetic Lab.
- Balance Lab.
- Suspension Lab.
- Measurements Lab.
- Therapeutic Modalities Labs.
- Electromagnetic & Shockwaves Lab.
- Osteoporosis lab.
- Lab of Electromyography and Nerve Conduction Velocity Studies
- Lab of Physical Therapy for Pediatrics Disorders and its Surgeries
- Lab of Physical Therapy for Cardiopulmonary Disorders and Geriatrics
- Hydrotherapy Lab
- Protheses & orthoses lab.

5- Research and Development Center

The Research and Development Center is dedicated to providing research services to students, researchers, and the wider community. It contributes to environmental development by offering research studies, scientific consultations, training courses, and practical solutions for institutions, companies, entrepreneurs, and investors. The center's research units cover areas such as environmental sustainability, soil and water research, and molecular biology and genetic engineering. It operates through three departments: Training and Scientific Seminars, Service Analysis and Scientific Consultations, and Quality Control. The center's activities are centered on conducting research studies that serve the community and offering training courses in various fields, including analytical techniques and molecular biology, to enhance participants' skills and technology expertise.

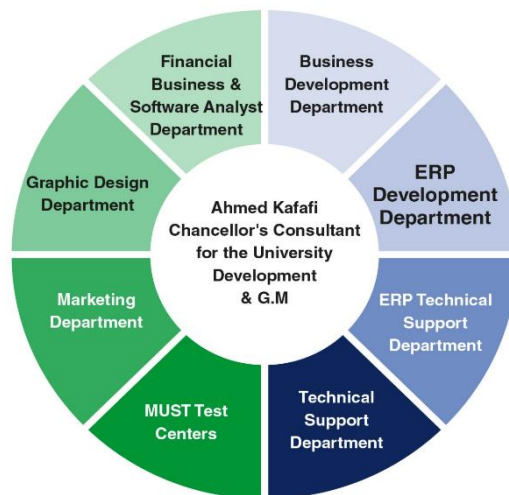

6- Dental Implant Research Center

The [Dental Implant Research Center](#) at MUST collaborates with the Italian University of Genova to offer accessible postgraduate fellowship programs. The center's mission is to advance dental implant research and education globally by equipping dentists with cutting-edge technologies, raising local therapeutic standards, and reducing the need for overseas treatment. Additionally, the center is dedicated to cultivating a new generation of implantology professionals capable of meeting regional healthcare demands while upholding ethical values and enhancing the community's well-being through high-quality therapeutic services.

7- [Management Development Center](#) (MDC)

MDC offers a range of services to meet your organization's diverse needs. Our software development team is dedicated to creating tailored Enterprise Resource Planning solutions designed to optimize efficiency, reduce operational costs, and increase revenue, ultimately maximizing profits. Our graphic design experts focus on establishing a strong corporate identity, offering a variety of design services, including logos, business cards, and digital and print materials. Additionally, our specialized social media team is committed to enhancing your brand's online presence through comprehensive management, content creation, marketing strategies, and ongoing monitoring, ensuring your brand remains in the forefront of your audience's minds.

MDC Structure

In addition to customized solutions, MDC owns ready-made ERP Solutions in several fields.

MUST Rankings Office

MISR UNIVERSITY
FOR SCIENCE & TECHNOLOGY

Corporate

HUMAN is an online software solution that covers the latest statutory and legislative requirements and helps organizations implement best practices in managerial functions.

Education

SCHOOLIZOR is a strong management ERP solution for professional companies working in the field of education. It allows managing departments, resources, & different fields of activities easily with international standards.

Healthcare

RHAZES is a web-based solution which includes essential medical, clinical, & administrative modules that are necessary to manage & operate a hospital smoothly, without the complication of requiring experts to use the system.

Retail

TRADOSS is a solution that provides an easy way to manage retail business, points of sales, logistics departments, and link all business activities together in a user friendly manner.

8- Innovation and Entrepreneurship Center

The Innovation and Entrepreneurship Center at Misr University for Science and Technology plays a pivotal role in fostering innovation and entrepreneurship among academics, students, and aspiring entrepreneurs. It encourages a culture of innovation that aligns with Egypt's strategic plan 20/30 and the university's mission for international distinction. Through diverse programs, competitions, business incubation opportunities, and individual consulting services, the center aims to nurture creative talent and contribute to economic and social transformations, ultimately achieving sustainable development.

III- Heritage and Art building accessible for Public:

1- MUST Opera House

MUST Opera House is one of MUST contributions for preserving Arts and Heritage. MUST Opera House, which is established in 2001, provide various services to the university members and the community as well. With its outstanding concert hall with capacity of 1000 seating chairs, the opera house hosts international and national shows and festivals. Furthermore, the graduation ceremonies of the university colleges are held annually to celebrate the students' achievements. Festivals and Conferences that host celebrities from all over Egypt are also held in the Opera House and is open for the public. Moreover, because of MUST's belief in its role towards the community.

3- The Mosque

The Mosque at MUST stands as a testament to the significance of religion in shaping individuals. It offers students, 6th of October residents, and the wider public a spacious place for prayer, meditation, and worship, accompanied by an event hall. Its unique architectural design provides a serene environment for religious rituals. The mosque also hosts social and cultural activities, including competitions and celebrations. Additionally, it offers the event hall for rent at a reasonable price, serving both university employees and the public. With the guidance of esteemed Al-Azhar scholars, the University Masjid underscores the importance of religion in students' lives and the broader community.

for more info: <https://www.youtube.com/watch?v=krE6fDQRgJA>

4- MUST Central Library

The library is open from 9am till 9pm except Thursday it is open from 9am till 3pm to provide maximum time for students and researchers. It includes bibliographic information services, internal and external circulation, reference services, and electronic document delivery, either through its general collection of books and references or through the Egyptian Knowledge Bank databases. The library contains specialized references in the fields of: medical, biological, engineering, media, languages and literature, archeology, information technology, and other scientific majors taught at the university faculties in order to serve all scientific, cultural and creative fields, because it is our goal that we seek to achieve.

Moreover, the library provides good training opportunities for students specializing in library science and information technology to ensure continuous development through joint efforts between academics and librarians.

5- [Center for Editing Arabic Heritage](#)

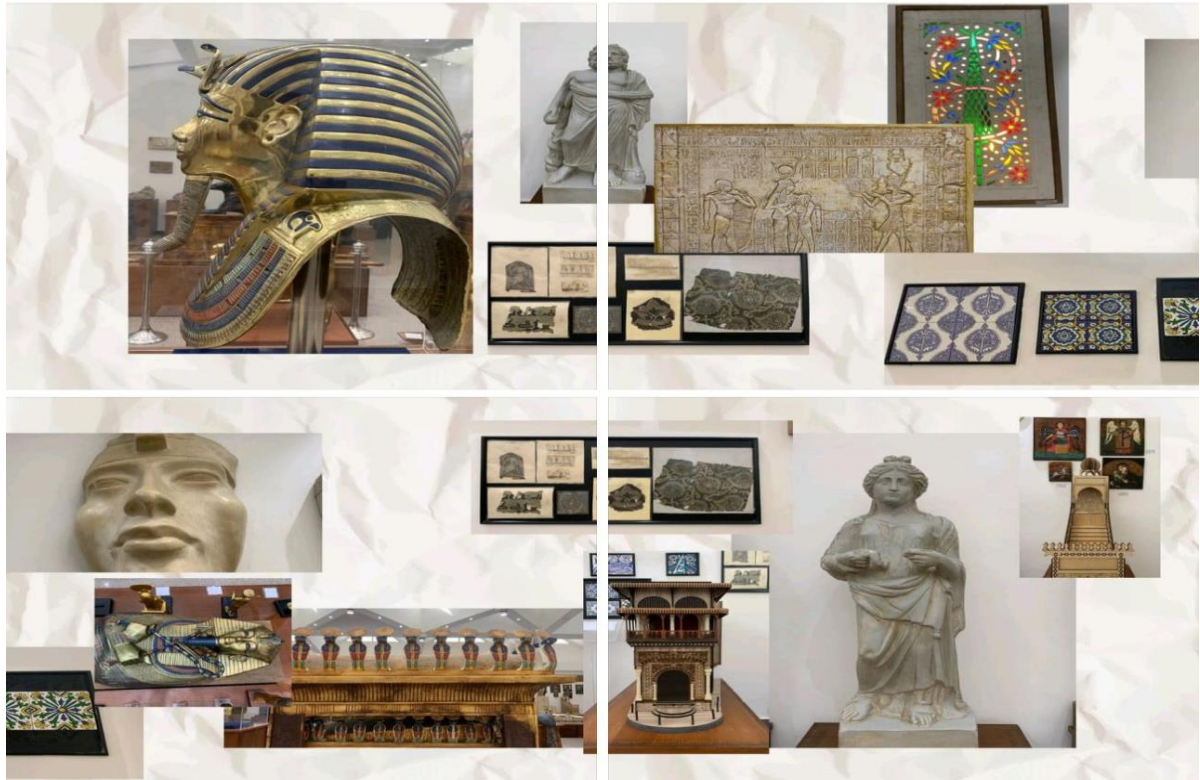

The Center for Editing Arabic Heritage, founded by Misr University for Science and Technology in 2010, plays a pivotal role in serving the broader community by revitalizing and disseminating the rich Arabic heritage. It not only uncovers the achievements of Arabic scientists but also translates Orientalist works, ensuring that this wealth of knowledge is accessible to researchers and the public. Moreover, it fosters a spirit of tolerance and inclusivity, reflecting the cultural and historical values of the Arabic heritage, thus making an invaluable contribution to the community's cultural awareness and appreciation.

MUST celebrated the Arabic Manuscript Day for the year 2022.

6- MUST Museum

Misr University for Science and Technology's museum plays a vital role in the community by offering educational replica models of Egypt's archaeological treasures. These replicas, totaling 370, cater to students of archaeology and tourism guidance, enabling them to delve into Egypt's history from ancient times to the present. This community-focused initiative fosters historical and cultural awareness. Open to the public upon request, the museum invites visitors from Saturday to Thursday between 9 AM and 5 PM, further emphasizing its commitment to serving and educating the broader community.

7- Indoors and Outdoors Sports Facilities

The MUST Sports Facilities offers an extensive array of sporting amenities, designed to meet the diverse interests and requirements of students, faculty, and the local community. The indoor section boasts a well-equipped gym, fitness and exercise areas, as well as table tennis facilities, among others. In contrast, the outdoor section features spacious grounds for various sports and activities, including tennis, basketball, handball, volleyball, and expansive football fields. Notably, MUST has

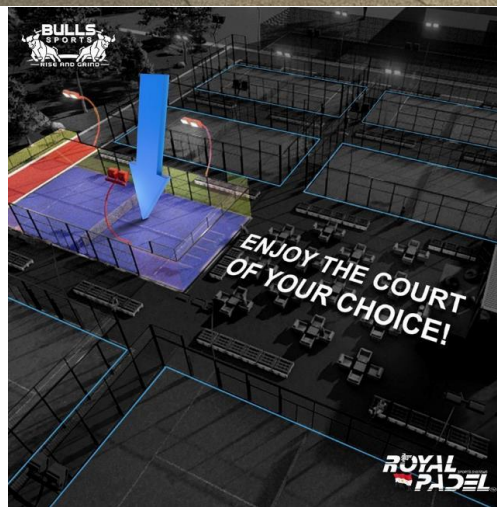

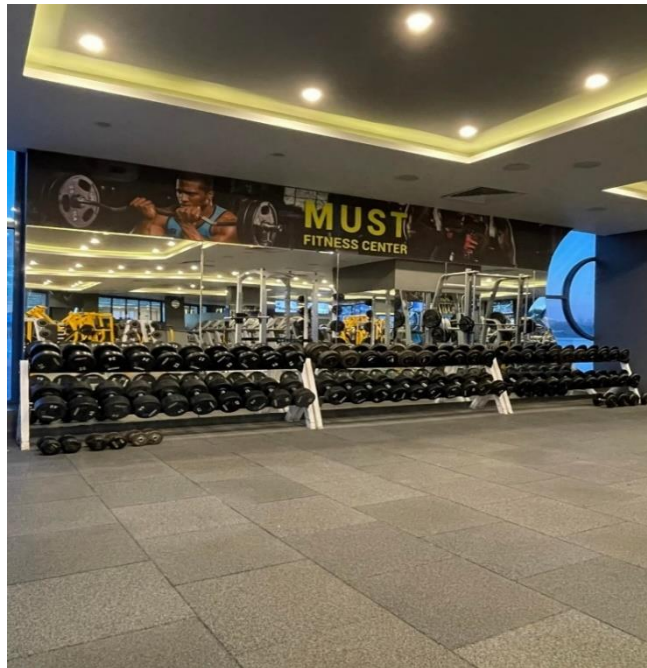

[the largest number of paddle tennis courts](#) in the area, accessible to the public for a nominal fee. Additionally, the university offers a convenient [reservation system through an application](#), enabling users to secure courts and stadiums at their preferred date and time.
