11.2 Support of arts and heritage

11.2.3 The Heritage Educational Museum

The university has allocated two-hall in the Central Library building as an Educational Museum to display replica models of the most important archaeological art holdings necessary to familiarize students at the college of archeology and tourism guidance with the history and civilization of Egypt from prehistory to modern and contemporary eras. Also, it serves the local community visitors of all ages. The museum presentation methods include Showcases of different sizes and Wall mounts for display.

The Educational Museum at Misr University for Science and Technology was opened in 2007, on an area of 211 square meters, and also general modifications were made to the museum in 2014. It is located in the central library building, the university and college administration cooperated with the Supreme Council of Antiquities, and the museum was equipped as an educational unit, it also contains different pieces of replicas conforming to the technical specifications.

Vision

The Museum of Misr University for Science and Technology is concerned to be an educational and edification museum, which helps in the educational process (for practical study at the college) and opens new horizons of knowledge for both students and university delegations. Moreover, it connects educational curriculum with museum exhibits, so our vision for the museum is to become a center for disseminating the history of our civilization.

Mission

The mission of the educational museum lies in making the museum one of the important educational institutions to serve the local community and to participate in its objectives by preserving and maintaining museum pieces, allowing researchers and scholars to benefit from it, and educating visitors of all ages.

The general objectives of the educational museum programs

- Practical training in the field of museums for students from different departments in the field of "Ancient Egyptian and Islamic Antiquities, Restoration and Maintenance of Antiquities and the Arabian Peninsula, and Tourist Guidance" in order to serve our community.
- Providing educational and cultural experiences and opportunities through our exhibitions and also by elucidating the replicas presented for both children and adults through school visits that come to our college during the academic year, as well as other delegations whether from Egypt or foreign countries who visit our university in a framework of cultural exchange between Egyptian universities and others.
- Educating visitors and satisfying their curiosity about the knowledge of ancient Egyptian civilizations.

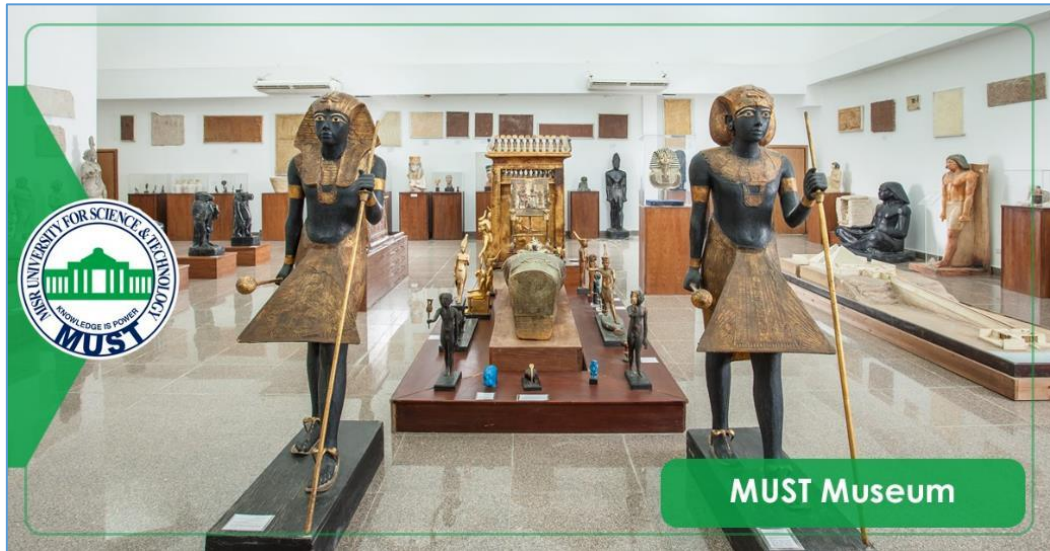

Contents of the educational museum

The museum contains different objects in terms of raw materials such as "marble, wood, pottery, porcelain, metal...etc.

As well as for different historical periods, starting from the pre dynastic era, the old Kingdom, the middle kingdom, the new kingdom, the late period, passing through the Ptolemaic era, the Roman and Coptic era, and all the historical periods that permeated the Islamic era from the Umayyad era until the Ottoman era.

A table showing the numbers of pieces preserved in the Educational Museum:

Period	Number
