17.2 Relationships to support the goals.

17.2.2 Cross sectoral dialogue about SDGs

In 2022, Misr University for Science and Technology (MUST) actively initiated and participated in many cross-sectoral dialogues about the United Nations (SDGs). This engagement extended to conferences and discussions involving government entities and non-governmental organizations (NGOs).

Participating in COP27, Misr University for Science and Technology (MUST) hosted a significant side event titled "Advancing Sustainability and Technology as a Guiding Light for Africa." During this event, MUST president highlighted MUST consistent commitment to international sustainability standards, which has been a longstanding tradition on its campus. Additionally, he confirmed the incorporation of SDGs in upcoming university campus projects. The event emphasized the importance of collaborations on both national and international scales, with a specific focus on fostering research networks, particularly within the Arab region and African nations. The day also included participation in a seminar organized by the Egyptian Canadian Business Council, focusing on the roles of youth and women in addressing climate change challenges. Notably, visitors to the MUST booth expressed increased interest in the university initiatives to implement the SDGs.
