MISR UNIVERSITY
FOR SCIENCE & TECHNOLOGY

Renewal the collaboration between Misr University for Science and Technology and [the Institute of Oriental Studies of the Russian Academy of Sciences](#) plays a crucial role in supporting data collection and measurement. Through this collaboration, expertise and methods are exchanged, streamlining efforts to collect data related to cultural heritage in Eastern regions. This includes documenting endangered cultural sites, utilizing preservation methods, and modern

digitization techniques to document cultural assets. This collaboration effectively facilitates a supportive environment for more efficient data collection and evaluation of cultural heritage aspects in Eastern regions, thereby enhancing the achievement of United Nations' goals related to sustainable development and sustainable communities.

The French Institute of Oriental Archaeology (IFAO) is a renowned global institution dedicated to archaeological research and the preservation of cultural heritage, with a specific focus on the regions of the Eastern Mediterranean and the Near East. It plays a crucial role in data collection related to

sustainable development by unearthing historical and archaeological evidence that sheds light on the development and evolution of ancient civilizations, providing valuable insights into human history, culture, and the factors that contribute to sustainable societies.

This global perspective and expertise have been effectively applied to [collaborative endeavors with Misr University for Science and Technology \(MUST\)](#), particularly in the restoration of the tombs in Deir el-Medina. By conducting meticulous archaeological research in Deir el-Medina, this partnership uncovers the daily life, societal dynamics, and craftsmanship of its former residents who played a crucial role in constructing the royal tombs in the Valley of the Kings. This collaborative effort not only enriches our understanding of ancient Egypt but also provides valuable historical insights that contribute to the broader knowledge of human civilization, supporting the objectives of sustainable development.

MISR UNIVERSITY
FOR SCIENCE & TECHNOLOGY

Misr University for Science and Technology's full membership in both [Association of Arab Universities](#) and the [Associations of African Universities](#) offers a distinctive opportunity for the university to actively collaborate in the collection and assessment of data. These two associations, as [members of the International Association of Universities \(IAU\)](#) operating under UNESCO's guidance, play a pivotal role in serving the global higher education community. Notably, a core strategic objective of the IAU involves fostering [BUILDING SYNERGIES & NETWORKING](#) among its members, facilitating the sharing of knowledge, the development of expertise, collaborative projects, and recommendations aimed at leveraging higher education's contribution to achieving the global objectives outlined in Agenda 2030.

The screenshot displays the IAU website's 'Members' page. At the top, the IAU logo and tagline 'The Global Voice of Higher Education' are visible. A navigation menu includes 'HOME', 'ABOUT IAU', 'MEMBERSHIP', 'PRIORITIES', 'KNOWLEDGE HUB', 'EVENTS', 'PARTNERSHIPS', and 'CONTACT'. The main heading is 'Members'. Below this, a paragraph states: 'IAU counts four categories of Members: Institutions, Organizations, Affiliates and Associates. Members have specific rights and benefits. Each IAU membership category has a specific set of criteria and application process. IAU gathers almost 600 Members (Institutions, Organisations, Affiliates and Associates) from more than 120 countries.' A horizontal menu below the text lists 'INSTITUTIONS', 'ORGANIZATIONS', 'AFFILIATES', 'ASSOCIATES', 'SENIOR FELLOWS', and 'NEWS FROM MEMBERS'. Under the 'ORGANIZATIONS' tab, a list of 'International higher education organizations' is shown, including the Association of African Universities (AAU) in Ghana and the Association of Arab Universities (AARU) in Jordan.
