

College of Pharmaceutical  
Sciences and Drug Manufacturing  
A college accredited by "NAQAAE"

PP 903

## **COURSE DESCRIPTION:-**

The aim of this course is to help the student develop professional skills in therapeutics. Subjects taught to the students will provide the concepts, facts and knowledge to make therapeutic decisions. Analytical skills, however, are attained through case studies and problem-oriented discussions. It is expected that the students will develop competence in developing the most patient-specific therapeutic plans by integration of the knowledge obtained in this course, other courses in clinical pharmacy and information given in pharmacology. The course comprises pharmacotherapy of obstetrics, gynaecology, pediatrics and geriatrics.
